LANDLORD/HOME OWNER GAS SAFETY RECORD CHECK LIST

GUIDANCE FOR RECIPIENT (to be appended to the Certificate)

- 1. Check with the occupant to ascertain any problems with the gas installation and appliance(s).
- 2. Check that there is an adequate supply of air to all gas appliances.
- 3. Check the operation of appliance, control taps, ignition system and any flame supervision devices fitted.
- 4. Check the flame picture of any burner(s).
- 5. Check clearances from combustible materials e.g. kitchen cupboards etc.
- 6. Check the stability of the appliance (including provision of bracket or hook and chain on gas cookers).
- 7. Check gas installation pipe work and where appropriate any flexible connection(s).
- 8. Open-flues
 - (a) Check the condition and full route (where practicable) of the flue and, where applicable, the suitability of any terminal/chimney pot fitted.
 - (b) Check the appliance flue connection to any chimney or flue-liner. In the case of a back boiler installation, check all pipe ducts or voids entering the builder's opening including the annular space around any flue liner/flue connection are sealed.
 - (c) Carry out flue flow check.
 - (d) For a gas fire, check and clear the catchment space and check that any dampers have been removed or fixed in the open position.
 - (e) Test the appliance for spillage using any guidance given in the manufacturer's instructions.
- 9. Room sealed appliances
 - (a) Check case and sight glass seal on appliance, replace as necessary.
 - (b) Check position of terminal, clearances from corners etc. vegetation and terminal guard fitted as appropriate.
- 10. Ensure the operating gas pressure or heat input rate or, where necessary, both are correct.
- 11. Test all controls to ensure satisfactory operation.
- 12. Test all disturbed gas connections for tightness using leak detection fluid, carry out full gas tightness test if required.
- 13. Advise the gas user of any defects/further work required or recommend as necessary.
